School network allow list

Before Merlyn can successfully operate within your network infrastructure, please ensure that:

- Your Network Administrator implements the Merlyn Origin Allowlist to allow access to Merlyn-provided cloud services for any devices using Merlyn Origin. Find the full list at https://merlynorigin.zendesk.com/hc/en-us/articles/18378577967764-Installer-Guide.

- Merlyn Origin uses Port 3513 on each machine to communicate between the Merlyn Desktop App and Browser Extension. Please ensure this port is not in use by other applications.

Email allow list

Your Email Administrator allows emails from merlyn.org to ensure prompt receipt of training materials and important announcements.
